Comment Text :

-->Lets have fun with logic:

- 1 [ (1) You're going to transport extremely hazardous nuclear material across the country via highway and rail.  
(2) Its going to go right in front of my house via rail.  
(3) I had nothing to do with the creation of this waste.  
(4) I'm going to lose substantial property value and possibly my life if you go forward with this plan.

Hmmmmmmmm. I vote NO. ]

Do you all really think this is a good idea? If you do, do you want to buy my house for you and your kids?
